

ActiveEyeSM

SECURITY MONITORING AND
RESPONSE SERVICES

Business is increasingly being conducted on platforms like mobile devices and cloud services, making it difficult for traditional IT and security to keep up. With the frequency and severity of attacks increasing, your organization needs the people, technology, and proven methods to swiftly recognize and respond to the oncoming rush of threats.

Delta Risk can bridge your organizational security gaps through continuous monitoring of your network. Our ActiveEye solution prevents small threats from evolving into bigger incidents, and reduces the time required to detect, contain, and eradicate problems as they unfold. With years of experience in real-world incident detection and response, we focus on your security monitoring so you can focus on your business.

From basic network traffic monitoring and control to more expansive compliance reporting and tracking, we can be the extension to your security team through our comprehensive managed services approach.

Three Service Options

ActiveEye Internal

Next-generation endpoint protection, asset discovery, internal traffic analysis, and advanced threat detection

ActiveEye Perimeter

Compliance-ready protection to secure the enterprise boundary

ActiveEye External

Cloud application security, network-layer protection for remote and mobile devices, and proactive threat intel

In-depth Protection

Gain comprehensive data protection and cyber security coverage with the peace of mind that you don't have to develop your own specialized cyber security operations.

On & Off

Network Security

Network-layer and cloud-service security, on or off the company network, for all devices (including mobile).

Our Security Experts

Develop and implement a trusted, enterprise-wide environment backed by a dedicated security team who deliver technical guidance, thought leadership, and critical analysis.

What

- Enterprise Networks
- Mobile Devices
- Off-network Systems
- Security Devices
- Servers and Critical System Logs

Who

- Cyber Security SOC Analysts
- Expert Incident Responders
- Threat Intelligence Analysts
- Cyber Security Engineers

Why

- Protect Against Malicious Websites
- Protect Against Phishing Emails
- Respond to Advanced Persistent Threats
- Monitor Critical Information
- Meet Regulatory Compliance Requirements

Is ActiveEye For You?

- ▶ You need customized reporting to meet compliance and regulatory requirements
- ▶ You need a dedicated SOC to provide 24/7 monitoring and incident response
- ▶ You have a technical team but need a higher level of security expertise
- ▶ You want to implement security tools but don't have the resources
- ▶ You need a vulnerability management program

Service Features

- ▶ 24x7 Monitoring and Alerting
- ▶ Actionable Notifications
- ▶ Archival Event-logging
- ▶ Ability to Block Malware and Phishing
- ▶ Monitor and Protect Any Device Anywhere
- ▶ Customizable Content Filtering
- ▶ Portal Access to View and Manage
- ▶ Network Intrusion Detection System (NIDS)
- ▶ Security Incident Event Monitoring (SIEM)
- ▶ Archival Event-logging From Multiple Devices
- ▶ Counter Threat Intelligence
- ▶ Asset Detection
- ▶ Remote Monthly Remediation Support
- ▶ Support for Compliance Reporting
- ▶ Vulnerability Detection and Reporting
- ▶ File Integrity Monitoring (FIM)
